World Famous Collection No Longer...

IN THE VALLEY OF THE MOON

Well. . . Well. . . Well. . . The Sonoma City Council has been asleep again at the gate and let one of its prize horses get out of the barn. . .

We were happy to learn that Mrs. H. H. Arnold has decided to move her late husband's Model Airplane exhibit from the Sonoma City Hall. . . Since the "City Dads" don't appreciate a good thing. . .

We feel that this Model Airplane exhibit which General "Hap" Arnold loaned the city has been a great attraction for this area, but it only takes a few to spoil it for the majority. . .

General Arnold wanted his model airplanes displayed here in the Valley of the Moon where he had made his home, regardless of the many requests from larger cities and public institutions. . .

It was a great honor to have been able to see this fine collection and to show it to our friends during the past nine years. . .

We hope that the exhibit will be placed at the new Air Force academy in Colorado, where We feel it belongs and will be appreciated. . .

As soon as the collection is removed from the City Hall, We suggest the Council lock the gates, and replace the five hitching posts. . .

Thank you,
The Publisher
